Number: 2003-003/03
Subject: Edig@s Message Format
Approved: 15.07.2024

Summary

This Common Business Practice recommends the usage of the Edig@s message format for the named business processes, and the usage of the ENTSOG AS4 profile for the transmission of messages.

41 **Common Business Practice 2003-003/03 "Edig@s Message**
42 **Format"**

43

44 **1.1 APPLICATION AREA**

45

46 The following Common Business Practice has been approved by EASEE-gas for use in gas
47 business transactions.

48

49

50 **1.2 EXPLANATORY NOTES**

51

52 **1.3 EDIG@S MESSAGE FORMAT**

53

54 EASEE-gas recommends the use of the latest version of the Edig@s message format in the
55 following business processes:

56

- 57 1. Capacity Allocation
- 58 2. Gas Trading
- 59 3. Nomination & Matching
- 60 4. Balancing & Settlement
- 61 5. REMIT and Transparency
- 62 6. General Process
- 63 7. System Operation

64

65 The detailed description can be found in the Edig@s Message Implementation Guidelines (MIG)
66 under the following URL:

67

68 **<http://www.edigas.org>**

69

70 **1.4 Recommended Message Transfer Protocol**

71

72 EASEE-gas recommends the usage of AS4 following the latest ENTSOG profile for the transfer
73 of Edig@s messages. This document-based approach follows the push paradigm – the
74 messages are pushed immediately via AS4 when the information is available or when there
75 are updates in the sender's data. This is important especially for time critical processes, e.g.
76 Nomination and Matching.
