Common Business Practice 2007-005/02 "Edig@s Support Versions"
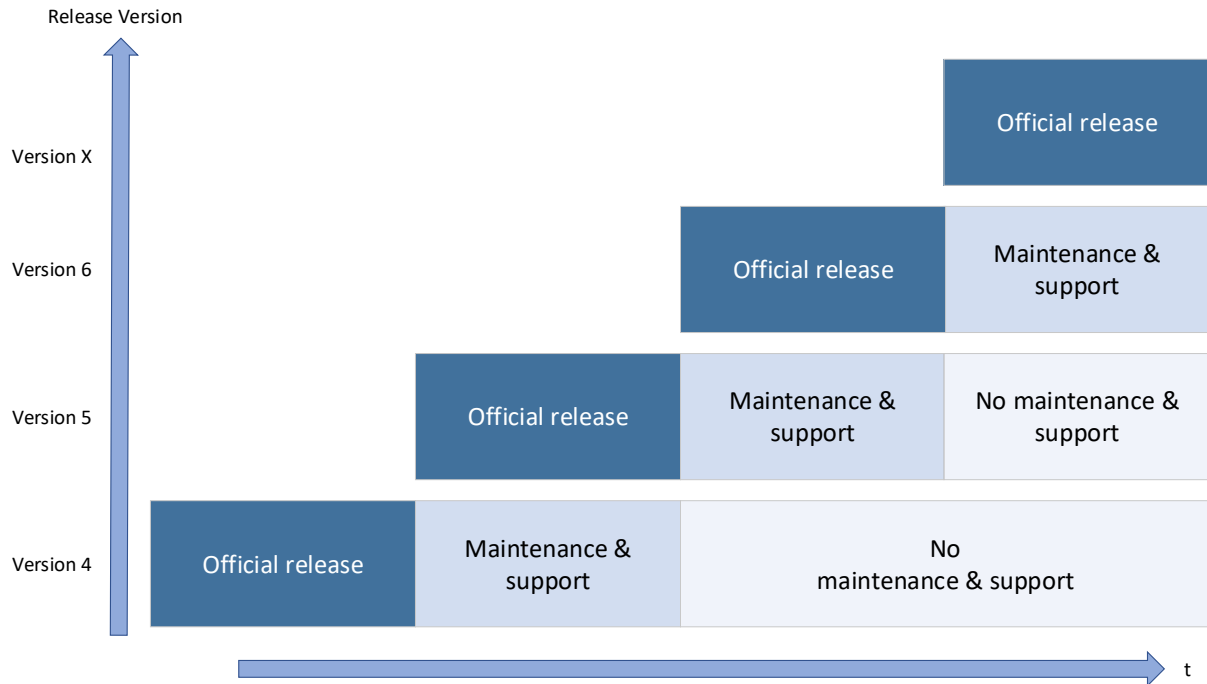

1.1 APPLICATION AREA

The following Common Business Practice has been approved by EASEE-gas for use in the evolution of the Edig@s releases.

1.2. CHANGE AND RELEASE MANAGEMENT

Comments can be given anytime to EASEE-gas directly, email easee-gas@kellencompany.com. In the CBP section of the EASEE-gas website there is a link to the excel template for comments. EASEE-gas will collect the input and review it on regular basis. Depending on the numbers of comments, a new version will be initiated. A document change log is given in the end of the role model document.

2.1 EDIG@S SUPPORT VERSION

The general maintenance & support for Edig@s releases, are outlined in the following diagram.

Release Version

| Version X | | | Official release | |
Version 6			Official release	Maintenance & support
Version 5		Official release	Maintenance & support	No maintenance & support
Version 4	Official release	Maintenance & support	No maintenance & support	

t

The main principle is that the EASEE-gas Edig@s working group will provide support and maintenance of the current official release, and for the previous release to the official one. This means that when version 6 is released, the old Edig@s version 4 will no longer be maintained by EASEE-gas. The implications of this is that any submitted maintenance requests, error corrections or changes to version 4 no longer will be handled.

89 **2.2 TRANSITION PERIOD**
90
91 With the changes that comes in Edig@s version 6, a longer transition period than
92 normal is anticipated to facilitate the user community to handle the evolution to
93 the new Edig@s version.
94
95

96
97
98 The timeline for the publication of version 6 is outlined in the following table.
99

31st August 2020	Tentative date for the publication of Edig@s Version 6. The maintenance and support for version 4 will end.
